

Amendment Number 2

Addition to Sailing Instructions

New SI 1.22 : Where there is reference in the RRS or the SI's to the hull and equipment, the following shall apply in respect of the tube fixed to the transom.

- (a) as far as the definitions of *clear ahead*, *clear astern* and *overlap* are concerned the tube aft of the red tape shall not be considered as equipment in its normal position.
- (b) If a boat makes contact with a mark and the only contact is between the tube and the mark, the contact shall be deemed to be contact with the hull.
- (c) If a boat makes contact with another boat by touching the tube, it shall be deemed to be contact with the side of the boat if the contact occurs on or ahead of the red tape and to be contact with the transom if it occurs astern of the red tape.
